

myPower™ ALL *plus*

with DUAL MODE VOLTAGE SELECTION

MP3750

Double your battery life!

myPower™ ALL Plus the universal rechargeable battery featuring automatic voltage detection with an option for manual voltage selection, doubles the life of your laptop battery and other portable devices.

Truly universal, this efficient lithium polymer battery automatically detects the voltage of the connected laptop making it quick and simple to use. An optional manual mode lets you choose the required voltage for your device. A bonus USB output port enables you to charge a second device, like mobile phones, iPods®, and Zune®, at the same time.

myPower™ ALL Plus charges and/or powers laptops and virtually any portable device—anywhere, anytime—making it a versatile solution for the power needs of mobile products, on the road and at home. Most portable devices are often in need of recharging after just two to four hours of use. With myPower ALL Plus, you can enjoy hours of extended time on laptops, MP3 players, portable CD players, mobile phones, and other 5V portable consumer electronic products.

myPower™ ALL Plus is modular, so you can add a second battery to this lightweight rechargeable battery to double the life of your laptop battery between charges.

myPower™ ALL Plus comes with nine adapter tips, including a Mini USB tip, for connection to most small portable devices. Additional adapter tips and the extended battery (MP3450-10) are available at the Tekkeon Store at www.tekkeon.com.

Portable Power

- Automatic voltage detection
- Manual mode for user control
- Use tip or USB device cable
- Charge with laptop power adapter

Output Adapter Tips

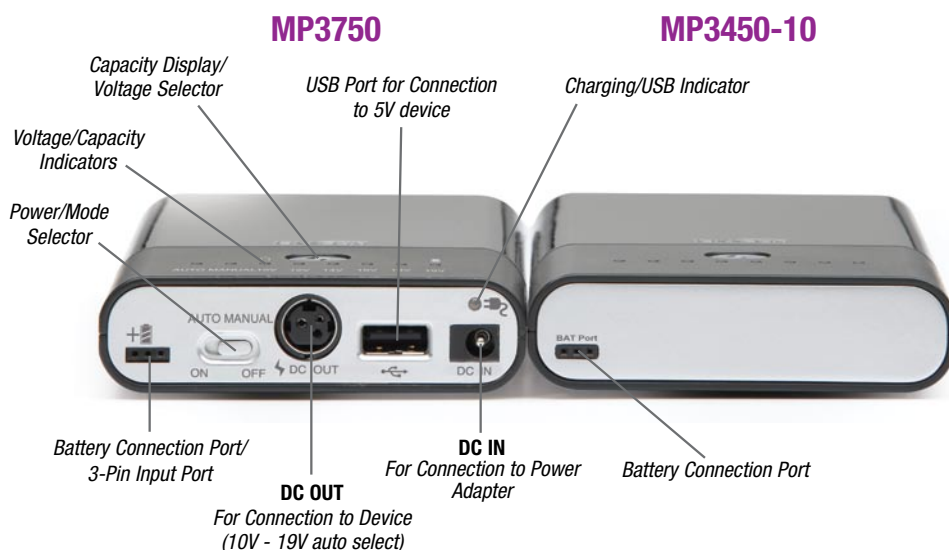

Input Adapter Tips

Adapter kit with carrying pouch
(includes mini USB tip AND 8 output adapter tips/
6 input adapter tips for connection
to most laptops)

Power and charge two devices at once!

Use an adapter tip or your device USB cable to
simultaneously charge your 5V devices including
mobile phones, PDAs, iPod, Zune® and MP3.

Specifications

Weight: 15.4 oz (or 32 oz with extendable battery)
Dimensions: 3.32" (W) x 6.85" (L) x .89" (D)
Battery Type: Rechargeable lithium polymer
Lithium Content*: 4 grams (MP3750)
4 grams (MP3450-10)
Charging Time: 4 hours
Voltage Selection: 10 to 19V for main output,
5V for USB port
Output Power: 50Wh
Color: Black

*Meets FAA lithium battery requirements for carry-on luggage.

Box includes

- myPower ALL Plus universal rechargeable battery
- Adapter kit with carrying pouch
(includes mini USB tip AND 8 output adapter tips/
6 input adapter tips for connection to most laptops)
- Retractable USB cable
- Output cord
- User guide

POWER ON THE GO

DEVICE	EXTRA POWER	WITH EXTRA BATTERY*
Laptops	3.5 hours	7 hours
Portable media centers	12 hrs of video 30 hrs of audio	24 hrs of video 60 hrs of audio
MP3 players	42 hours	84 hours
Portable CD players	96 hours	192 hours
PDAs	14 hours	28 hours
Mobile phones	60 hours of talk time	120 hours talk time

*With MP3750 and MP3450-10 combo.

Hours shown are approximate, and will vary depending on connected device. Extra run time for 17" laptops will be lower.

MP3750 will power or charge virtually all laptops for which an adapter tip is available, and that draw up to 90W output power from the device power adapter. Each battery contains 4 grams of lithium, which is less than the FAA maximum of 8 grams for carry-on luggage.

Optional extended battery (MP3450-10) available to **double** the capacity.
